**DETAILED ACTION**

***Claim Objections***

1. Claims 26-27 are objected to because of the following informalities: Claim 27 is improperly numbered as Claim 26. Appropriate correction is required.

***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-16, drawn to a method of manufacturing a disposable undergarment, classified in class 128, subclass 898.
  - II. Claims 17-27, drawn to a disposable undergarment, classified in class 604, subclass 385.19.
3. The inventions are distinct, each from the other because:
4. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the disposable undergarment as claimed could be made by another process.
5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and the

Art Unit: 3761

search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
